Hero MotoSports Statement on C S Santosh

Our Hero MotoSports Team Rally rider C S Santosh is currently receiving treatment at the Saudi German Hospital in Riyadh, after a high-speed crash on Wednesday in Stage 4 of the 2021 Dakar Rally.

We are pleased to share that he has no major physical injuries except for the dislocated right shoulder and head trauma. The latest scans have also shown no major issue that could impact his full recovery.

The medical team attending to him have decided that the best approach to manage the injury is to reduce the body functions to a minimum and keep him in a sedated condition or an artificial coma. He is receiving the best possible medical care and will continue to be under constant observation for the next few days.

We express our deepest gratitude and thanks to the riders who extended their help to Santosh. We also want to thank the organizers for getting the medical and rescue teams on the spot in quick time and airlifting him to reach the hospital quickly.

We are also most grateful to all of you for pouring in your prayers and wishes from all over the world for the speedy recovery of Santosh and your overwhelming support to our team.

The entire Hero MotoSports Team Rally and the extended Hero Family is fully committed to aid the recovery and rehabilitation of our teammate.
